#### **⋮** APPLICATION PERMISSIONS

PERMISSION	STATUS	INFO	DESCRIPTION
android.permission.INTERNET	normal	full Internet access	Allows an application to create network sockets.
android.permission.ACCESS_NETWORK_STATE	normal	view network status	Allows an application to view the status of all networks.
android.permission.ACCESS_WIFI_STATE	normal	view Wi-Fi status	Allows an application to view the information about the status of Wi-Fi.
android.permission.ACCESS_COARSE_LOCATION	dangerous	coarse (network- based) location	Access coarse location sources, such as the mobile network database, to determine an approximate phone location, where available. Malicious applications can use this to determine approximately where you are.
android.permission.ACCESS_FINE_LOCATION	dangerous	fine (GPS) location	Access fine location sources, such as the Global Positioning System on the phone, where available. Malicious applications can use this to determine where you are and may consume additional battery power.
android.permission.CAMERA	dangerous	take pictures and videos	Allows application to take pictures and videos with the camera. This allows the application to collect images that the camera is seeing at any time.

#### **CERTIFICATE ANALYSIS**

TITLE	SEVERITY	DESCRIPTION	
Signed Application	info	Application is signed with a code signing certificate	
Application vulnerable to Janus Vulnerability	warning	Application is signed with v1 signature scheme, making it vulnerable to Janus vulnerability on Android 5.0-8.0, if signed only with v1 signature scheme. Applications running on Android 5.0-7.0 signed with v1, and v2/v3 scheme is also vulnerable.	
Certificate algorithm might be vulnerable to hash collision	warning	Application is signed with SHA1withRSA. SHA1 hash algorithm is known to have collision issues. The manifest file indicates SHA256withRSA is in use.	

## **Q** MANIFEST ANALYSIS

HIGH: 1 | WARNING: 1 | INFO: 0 | SUPPRESSED: 0

NO	ISSUE	SEVERITY	DESCRIPTION
1	App can be installed on a vulnerable upatched Android version Android 5.0-5.0.2, [minSdk=21]	high	This application can be installed on an older version of android that has multiple unfixed vulnerabilities.  These devices won't receive reasonable security updates from Google. Support an Android version => 10,  API 29 to receive reasonable security updates.
2	Application Data can be Backed up [android:allowBackup=true]	warning	This flag allows anyone to backup your application data via adb. It allows users who have enabled USB debugging to copy application data off of the device.

Release Date: Mar 14, 2012 Privacy Policy: Privacy link

#### **Description:**

Find and rate wheelchair accessible places – worldwide and free of charge. Find wheelchair accessible restaurants, cafes, toilets, shops, cinemas, parking lots, bus stops and much more. The Wheelmap and OpenStreetMap communities have already rated about 1 million places! Ratings for another million places come from a growing number of partners such as Foursquare City Guide, Jaccede, AXSMap, HERE, Parkopedia, bahnhof.de, Mapy bez barier, etc. All in all, you can find accessibility reviews of more than 2,000,000 places on Wheelmap! More entries are added daily. As with Wikipedia, you too can join in and contribute information about places worldwide. This is important, because in some regions of the world there are only a few entries at the moment. Help us improve the map: Rate the entrances and restrooms of public places according to their wheelchair accessibility and upload images of the places. The 30 countries with the highest number of rated places are: Germany (582,174), United States (277,194), India (258,992), France (161,486), South Africa (74,568), Canada (57,247), Czech Republic (53,888) United Kingdom (53,718), Austria (52,253), Italy

(40,256), Australia (31,238), Spain (25,905), Algeria (24,657), Japan (21,503), Switzerland (20,820), Taiwan (15,300), Netherlands (15,030), Russian Federation (13,816), Hungary (13,186), Poland (13,056), United Arab Emirates (12,976), Turkey (11,180), Belgium (8,834), Brazil (8,070), Indonesia (7,765), Ukraine (7,495), Republic of Côte d'Ivoire (7,467), Mexico (7,449), Croatia (7,194). Wheelmap is available in 32 languages. Your smartphone must be set to one of the following languages: Arabic Bulgarian Catalan Chinese (Taiwan) Chinese (Traditional) Chinese (Simplified) Czech Danish Dutch English (United States) Finnish French German Greek Hebrew Hindi Hungarian Italian Japanese Korean Norwegian Polish Portuguese Portuguese (Brazil) Romanian Russian Slovak Spanish Swedish Turkish Ukrainian Vietnamese
